

## P04KDHDMI

### HDMI Android Media Player Box

#### Summary

P04KDHDMI player box has smart all-in-one android board with built-in RK3288 Quad Cortex-A17 chip solution, supports Google Android 6.0.1 / 8.1. With enhanced power management circuitry, multiple interfaces, also has stable performance. Support for common external devices. It is an ideal Smart Remote Control solution for industrial, medical, advertising, educational institution, etc.

#### Features

- HDMI 2.0 output, supports up to 4K display.
- Variety of interactive mode interfaces, infrared remote control, USB mouse and keyboard, multi-point optical touch.
- Multiple network interfaces: Ethernet, Wifi, and Bluetooth.
- Audio output, TF card slot, multiple USB interface, extended serial I/O port, I2c interface.
- Strong anti-electromagnetic interference and electromagnetic compatibility.

## Product Specifications

CPU	RK3288, Quad Cortex-A17 + GPU Mail-T764, Up to 1.8G
Operation System	Android 6.0.1 / 8.1
RAM	DDR3 2G default/4G (optional)
Internal Storage	Built-in 16G memory (Optional 8G/32G/64G)
Network Support	With RJ45 port, supports 10/100/1000M Ethernet. Built-in Wifi & BT module, supports Wi-Fi , BT4.1.
RTC Real Time	Support / Timing Switch
User Interface	USB 2.0Host x2 TF card slot, supports up to 32GB HDMI 2.0 output, up to 4K 50 / 60 Fps
Audio	MP3,WMA,WAV, APE, FLAC, OGG
Video	AVI、MKV(XVID/px/H.264)、MOV、TS、M2TS、RM、RMVB
Picture	JPG、BMP、GIF、PNG
Power Adapter	Input: AC100-240V.50-60HZ Output: DC12V 2A.
Language	Multiple languages.
System Management	Supports multiple serial devices, USB devices, IO control devices File Browser PHOTO/MUSIC/MOVIE
Power Supply	12V / 1,5 A
Dimensions	191 x 96 x 20 mm
